Technical Skills

- **Programming Languages**: JavaScript, C++
- **Frameworks & Libraries**: Node.js, React.js, Express.js, Next.js, Tailwind CSS
- **Databases**: MongoDB, MySQL
- **Tools/Platforms**: Git, GitHub, Postman, VS Code
- **Core CS Concepts**: Data Structures & Algorithms, Object-Oriented Programming (OOP), API Integration
- **Soft Skills**: Problem Solving, Communication, Team Collaboration

Internship

- **Full Stack Developer – Intern | Dhobi G(Remote)** June – July 2025
  - Developed a responsive **web-based laundry management platform** for customer order scheduling, tracking, and history.
  - Built **RESTful APIs** using **Django**, enabling secure user management, order processing, and contact form handling.
  - Designed dynamic UI components with **Next.js** ensuring seamless cross-device performance.
  - Collaborated in **Agile sprints**, using **AI tools and version control (Git)** for task efficiency and delivery.

Projects

- **Real-Time Chess Game | GitHub** Mar 2026
  - Developed a real-time multiplayer chess platform using **React.js**, **Tailwind CSS**, and **chess.js** for board rendering, gameplay, and move validation.
  - Built an independent **HTTP authentication server** to manage secure login, authentication, and authorization.
  - Developed a dedicated **WebSocket server** to create games and handle real-time communication and live move synchronization between players.
  - Implemented a **Redis queue** to asynchronously process game moves and decouple real-time gameplay from database operations.
  - Built a **worker server** to consume queued moves and persist them to the database for reliable storage and game recovery.

  Tech: React.js, Tailwind CSS, Node.js, WebSocket, chess.js, Redis, JWT, Database

- **Metaverse Platform | GitHub** Feb 2026
  - Architected a real-time multi-user **Metaverse platform** using a modular service-based architecture, separating HTTP APIs, WebSocket server, and shared database layers for scalability and maintainability.
  - Developed a secure **RESTful API** with Node.js and Express.js to handle JWT-based authentication, user management, avatar selection, and dynamic creation of virtual spaces.
  - Engineered a custom **WebSocket server** to manage real-time user interactions, including movement synchronization, event broadcasting, and live presence tracking across multiple clients.
  - Implemented server-side validation for user movement and actions to ensure consistent state synchronization and prevent invalid interactions in shared spaces.
  - Designed a scalable database schema using **PostgreSQL and Prisma ORM** to efficiently store user data, spatial layouts, and real-time coordinate-based positioning of entities.

  Tech: React.js, Node.js, WebSocket, TypeScript/JavaScript, Tailwind CSS, PostgreSQL, Prisma

- **AI Task Assignment System | GitHub** Sep 2025
  - Built an admin dashboard to create, manage, and track organizational tasks in real time.
  - Developed an AI-based task assignment engine that analyzes task descriptions, extracts required skills and matches tasks with the most suitable employees from the database.
  - Implemented skill-based matching logic using AI text analysis and database queries to improve assignment accuracy and reduce manual allocation effort.
  - Enabled real-time dashboard updates to reflect task assignments, employee mapping, and status changes dynamically.
  - Developed the frontend using React.js and Tailwind CSS, and built the backend APIs using Node.js, Express.js, and MongoDB

  Tech: React.js, Node.js, MongoDB, Express.js, Tailwind CSS, AI Agent Integration.

Certifications

- Data Structures & Algorithms (C++) by Cipher School. Dec 2024
- Certification in Cloud Computing by NPTEL Jul 2024

CO-CURRICULAR ACTIVITIES

- Smart India Hackathon | LPU Dec 2024
- Community Development Project | Summer term | LPU Jun 2023

Education

- **Lovely Professional University** Punjab, India

Bachelor of Technology - Computer Science and Engineering *Since August 2022*

- **Indian Public School** Purnia, Bihar

Intermediate; ***Percentage: 71%*** *April 2018 -March 2020*
